#### Case Details:

Mr. Leslie Alejo stated the City is currently installing an ADA ramp connected to the sidewalk on the corner of Hoagland/Carlyle connected to Mr. Alejo's property and to the property across the street from his home (Hoagland/Carlyle at the empty lot). Mr. Alejo said he is paying the City for them to also install an entryway from his personal property onto the roadway (Carlyle) in order for him to be able to drive his RV in/out of his property.

Is the City outsourcing the current construction project underway at Mr. Alejo's property? Who authorized this project?

Does the City have a current project to install ADA accessibility ramps, including a schedule of installations throughout the City? If so, where may I obtain a copy?

Does the City accept private residents to pay the City to perform construction on personal property? If so, where can I obtain the policy and procedure to submit such a request? I understand the Mr. Alejo is a recently retired City employee. Did his relationship with the City expedite this construction project and move this work to the front of the line?

How is the City tracking the time and materials spent on the personal property project being constructed for Mr. Alejo? I would like to receive a copy of the invoice submitted to Mr. Alejo and the payment he made to the City.
